

## Marine Bunkering

As we embark on a new year, we are thrilled to share exciting updates from the marine bunkering front. The seas are buzzing with activity, and McFall Fuel is proud to be at the helm, delivering outstanding marine fuel solutions to meet the unique needs of the maritime industry.

In the first 26 days of the year, McFall Fuel has been hard at work ensuring that we sail smoothly into the new season. We are delighted to report that a whopping 2.5 million litres of marine fuel have been successfully delivered, setting a strong and dynamic tone for the rest of the year.

Grand Princess Takes the Spotlight Among the notable highlights, we are excited to announce that the Grand Princess cruise ship has claimed the title of the largest vessel bunkered by McFall Fuel this year. As the maritime world marvels at the grandeur of the Grand Princess, McFall Fuel takes pride in being the trusted fuel partner chosen to supply this impressive vessel with the energy it needs for its journeys across the open seas.

## Leading The Way At WOSL Awards

As we reflect on the challenges and triumphs of the past year, we are thrilled to share an accolade that speaks volumes about McFall Fuel's unwavering commitment to excellence. In a recent meeting at the final WOSL Haulier gathering for 2023, our team had the honor of receiving outstanding recognition.

The WOSL (Wiri Oil Services Limited) Terminal, like any other operational hub, faced its fair share of hurdles in 2023. From unexpected filter changes to routine maintenance and the replacement of the Shelter 2 roof, the gantry underwent significant disruptions. Moreover, the year witnessed an increase in terminal strikes, where drivers faced temporary revocation of loading rights due to procedural breaches.

However, amidst these challenges, McFall Fuel emerged as the shining star. We are proud to announce that, once again, McFall Fuel secured the coveted position of #1 top performer in the Group 2 section for WOSL Terminal in 2023. This remarkable achievement follows our 1st place rankings in 2019, 2020, and 2022.

As we step into a new year, McFall Fuel remains steadfast in our pursuit of excellence. We look forward to continuing to serve you with the same dedication, reliability, and passion that have earned us the title of top performer at the WOSL Terminal for yet another year.

# PURCHASE LUBRICANTS AND WIN!

Win an awesome day out at the Taupo Super cars. Get up close and personal with a pit tour and more. To win simply purchase 20L of lubricants between now and March 31st 2024 to get your name in the draw.

Reach out to your local sales representative for more information.

## Making Sure You Have The Right Products For Maize Season

Maize cultivation is a cornerstone of New Zealand's agricultural landscape, and we understand the importance of reliable and efficient machinery during this critical period. AGRIFARM UTTO MP stands as a testament to our commitment to providing you with top-tier solutions tailored to meet the unique requirements of your operations.

### Key Features of Agrifarm UTTO MP:

**Versatility:** Agrifarm UTTO MP is a multifunctional oil crafted for use in transmission and hydraulic systems with integrated wet brakes, clutches, and differentials. Its versatility makes it the perfect choice for the diverse needs of your agricultural and construction machinery.

**Ultra High Performance:** Agrifarm is engineered to deliver exceptional performance, ensuring that your machinery operates at its peak efficiency during the maize season. The high-quality formulation provides superior protection, resulting in reduced wear and extended equipment life.

**Specialized for Agriculture:** Recognizing the unique challenges faced by the agricultural sector, Agrifarm is designed to excel in the specific conditions encountered during maize cultivation. From the intensive use of wet brakes to the demands of hydraulic systems, this product is formulated to keep your machinery running smoothly.

**Enhanced Lubrication:** The advanced lubrication properties contribute to reduced friction, heat, and overall wear on critical components. This not only enhances the performance of your machinery but also ensures a longer service life, reducing maintenance costs in the long run.

For personalized assistance and to learn more about how Agrifarm can benefit your specific machinery, contact your local sales representative.
